TECHNICAL SPECIFICATION

PERFORMANCE (A)

Acceleration 0 – 100 km/h (Sec)	5.7	CO2 emissions (NEDC, combined) g/km	161
Top Speed (km/h)	230	Fuel Consumption Extraurban (L/100km)	5.9
Fuel Consumption Combined (L/100km)	7	Fuel Consumption Urban (L/100km)	8.9

DIMENSIONS

Height (mm)	1671	Length (mm)	4687
Front track (mm)	1612	Wheelbase (mm)	2818
Rear track (mm)	1650	Max. Loadspace Volume (m3)	525
Width (mm)	1903	No. of Seats	5

STEERING

Turning Circle (m)	11.7
Steering	Servo Assisted Steering Rack

ENGINE CHARACTERISTICS

Engine	2.0 Turbo Petrol 206kW	Fuel feed	Direct Injection
--------	------------------------	-----------	------------------

STELVIO VELOCE 2.0 TURBO PETROL 206KW

Engine Capacity (cc)	1995	Number of Valves per Cylinder	4
Torque (@rpm)	2250	Engine Capacity (l)	2.0
Torque (Kgm)	40.79	Fuel Type	Petrol
Torque (Nm)	400	Fuel characteristic	Unleaded 95
Bore and Stroke (mm)	84 X 90	Engine Characteristic	Supercharged Turbo
Cylinder Arrangements	IN LINE	Camshaft Drive	Chain
No. of Cylinders	4	Tappets	Punterie Multiair su Aspirazione, RFF su scarico
Power (@ rpm)	5250	Camshaft Type	SOHC
Max Power (bhp)	280	Ignition	Electronic Single Spark
Max Power (KW)	206	Engine category	B Bz
Compression ratio	10:01		

ELECTRICAL SYSTEM

Alternator (Ah)	180 AMP Denso
-----------------	---------------

TRANSMISSION

Number of Gears	8	Gearbox type	Aut. Z.F.
Drive Type	AWD	Gearbox Selection Type	Automatic
Gearbox	Automatic		

BRAKES

Front Brake Dimension (Ø mm)	330 x 28	Front Brakes	Disc Ventilated
Rear Brake Dimension (Ø mm)	292 x 22	Rear Brakes	Disc Ventilated

STELVIO VELOCE 2.0 TURBO PETROL 206KW

SUSPENSION SYSTEM

Front suspension	Independent Quadrilateral
Rear Suspension	Independent Multilink

WEIGHTS AND SUPPLIES

Fuel Tank Capacity (l)	64
Kerb Weight (Kg)	1660

OTHER

Braked Towing Weight (Kg)	2300	Side doors	Traditional
Non Braked Towing Weight (Kg)	750	Rear doors	Hatchback
No. of Doors	5	Type of Use	Passenger vehicle
Trim Level	SUPER	Vehicle roof	Normal
Body Type	Suv		

STELVIO VELOCE 2.0 TURBO PETROL 206KW

The value of CO2 emissions is defined on the basis of official tests in accordance with the provisions of EU Regulation in force at the time of type approval.

The specification (A) indicates the value of CO2 determined on the basis of the NEDC cycle as per EU Regulation 692/2008.

The specification (B) indicates the value of CO2 determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153.

The specification (C) indicates the value of CO2 determined on the basis of the new WLTP test procedure as per Regulation 2017/1347.

The CO2 and fuel consumption values obtained according to the applicable legislation are indicated in order to allow the comparison of vehicle data. The homologation values of CO2 and fuel consumption may not reflect the actual values of CO2 and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions; the condition, use and equipment of the vehicle.

The value of CO2 and fuel consumption contained in this document summarising the selected configuration refers to the vehicle including all the equipment, accessories and tyres which had been chosen during the configuration.

The CO2 values and fuel consumption of the configured vehicle are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the official dealer of the chosen FCA network.

In any case, the official CO2 values and fuel consumption of the vehicle purchased by the customer will be supplied with the documents accompanying the vehicle.

In cases where the values of CO2 and fuel consumption are relevant for the purposes of calculating taxes and costs related to the vehicle, reference should be made to the applicable laws in each country.

TERMS & CONDITIONS

Terms & Conditions

The illustrations and descriptions on this configurator are given by way of example. The Manufacturer reserves the right to make any changes of a construction or commercial nature they feel necessary at any time without prior warning. Fuel consumption and CO₂ figures are obtained for comparative purposes in accordance with EC directives/regulations and may not be representative of real-life driving conditions.

Product and Prices

All the prices are intended as non-binding suggestions from FCA to its dealers. The prices of the options refer to options added at factory level. It is our intention to always show the most current prices at the time of selection. However, in certain exceptional cases, the prices may not have been updated.
